PROFILE

Ann attends Choate Rosemary Hall, a leading college preparatory private high school in Wallingford, Connecticut. Ann is primarily interested in Computer Science, AI, and Engineering, but loves all things STEM. As a lead programmer on her school's FIRST Robotics team, she enjoys collaborating with others to solve complex challenges. Additionally, she is the Community Service President of GirlTech, Head of Website Engagement on The Choate News, Computer Science Instructor at KTBYTE Computer Science Academy and more. In her free time, Ann loves building applications and automated scripts for her daily life.

EDUCATION

Sep 2021 — Present	Choate Rosemary Hall	Wallingford
